**1.1. effeff 11805 electric strike**

fail locked version,  
special flat-design,  
with adjustable radius keeper,  
resistance to break-up: 3750 N,  
with protection diode,  
for access code systems,  
nominal voltage: 10-24 V DC,  
current consumption ( 12V): 280 mA DC,  
current consumption ( 24V): 560 mA DC,  
nominal resistance: 44 Ohm,  
electrical permanent unlocking 10-16V DC  
without striking plate,  
right-/left-handed

order-no.: effeff 11805-----A71
