Text: 11805E-----A71

## 1.1. effeff 11805E electric strike

fail locked version, special flat-design, with adjustable radius keeper, resistance to break-up: 3750 N, with mechanical unlocking, with protection diode, for access code systems, nominal voltage: 10-24 V DC, current consumption ( 12V): 280 mA DC, current consumption ( 24V): 560 mA DC, nominal resistance: 44 Ohm, electrical permanent unlocking 10-16V DC without striking plate, right-/left-handed

order-no.:	effeff	11805E	A71
