

1.1. effeff 11805RR electric strike

fail locked version,
special flat-design,
with adjustable radius keeper,
with monitoring contact (door open / closed),
contact type: potential-free exchange,
resistance to break-up: 3750 N,
with protection diode,
for access code systems,
nominal voltage: 10-24 V DC,
current consumption (12V): 280 mA DC,
current consumption (24V): 560 mA DC,
nominal resistance: 44 Ohm,
electrical permanent unlocking 10-16V DC
without striking plate,
right-/left-handed

order-no.: effeff 11805RR-----A71
